Subject: Re: WTP Bit report

The WTP bit made a huge difference, Imagination ran 2nd. it stopped him from hanging and displacing the soft palate. We had tried various bits including a Norton Bit and he used to hang so bad we thought he was going to be barred.

He has a damaged tongue and hated the tongue tie the bit has solved all his problems.

Thanks for a wonderful product my trainer would like to purchase another two DSEL bits and Ring bit with the extended plate and two Dee bits without the extended plate.

All the best, Dwayne Jordan
