Subject: Re: Bit update

Hi Adrian

We are using your bit on an ex race horse as well as the wee pony for whom I bought it for at the moment. As it is too small for the bigger horse of course, we just wanted to see how he would go. Two rides in it and he is brilliant. Very soft contact and a lovely foaming of the mouth and a lovely steady head. Think I will have to get a 5" for him at some stage. The pony has been amazing. Was quite strong and sensitive before, so this bit really suits her.

Thank you for all your help Adrian.

Kind regards  
Margaret
